

Report on the condition of Allied Masonry in Canada

We did not lose any councils during the last year. Our 2 newest councils appear to be prospering with new members being initiated and papers being presented. From the information in the summons of those councils that send me copies there is no pressing issues with any of them.

It must be impressed upon the DDGMs that it is their responsibility to visit each council in their district and they must submit a report on the council to the Grand Secretary, as soon as possible after the visit. I would request that all DDGMs when making their report on their official visit, that they CC the chair of this committee a copy also, which would prove to be very useful when preparing a report on the condition of the AMD in Canada.

Respectfully submitted

R. Ven. Bro. T. Bilardino Seguí
